

# On-demand Primary Care

98point6 combines the expertise of U.S. board-certified physicians with the power of artificial intelligence to deliver on-demand care via private and secure in-app messaging that's available 24/7. We cover the full spectrum of primary care for members age 1+, from diagnosis and treatment to medical questions, as well as ordering of prescriptions and labs.

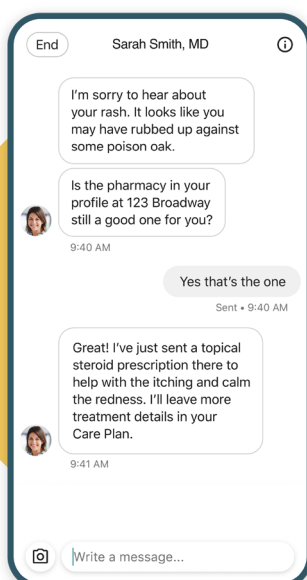

## Inside a 98point6 visit

1

### Share the reason for your visit

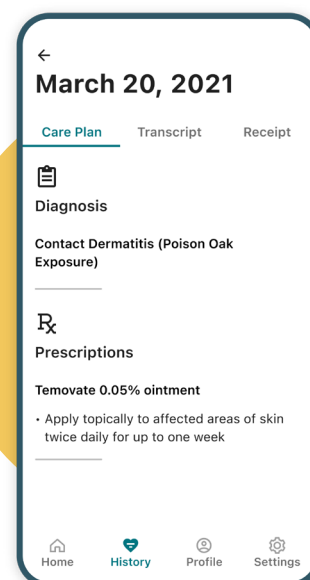

Whether you're not feeling well or simply have a health-related question, explain symptoms and concerns from anywhere you are via your mobile device.

2

### Receive diagnosis and treatment

A 98point6 physician will guide you through whatever is on your mind, assessing symptoms and addressing worries. No question is too small or embarrassing.

3

### Get a personalized Care Plan

Your post-visit Care Plan will include your diagnosis and any instructions related to treatment. Necessary prescriptions or labs will be submitted to your preferred pharmacy or lab center.

AI and machine learning support the entire visit, from information-gathering to follow-up. This combination of technology and human touch improves the primary care experience for patients and physicians alike, allowing our doctors to focus on what's most important: delivering the highest quality of care to patients.

# Primary care available at your employees' fingertips

98point6 offers a unique combination of affordable, accessible, quality care that caters to today's workforce expectations.

- ✓ Patients pay a **low to no visit fee\***, made possible by technology that optimizes the primary care experience.
- ✓ Text-based care is **accessible from anywhere** your employees are, whether they're at home, at work or on the go.
- ✓ U.S.-based, **board-certified physicians** diagnose, treat and keep employees and their families healthy.

## Reduce costs

Drive earlier intervention to avoid costly ER and urgent care visits and reduce the downstream total cost of care.

## Increase engagement

Empower employees to take charge of their health by eliminating barriers of traditional in-person care including cost and lack of access.

## Exceed expectations

Boost satisfaction and better meet the needs of today's workforce with convenient on-demand primary care that's available on your employees' terms.

"This app is user friendly and easy to use. The convenience of being able to talk to a doctor within minutes instead of having to book out weeks later and often waste PTO is priceless. Best App ever!"
