

1 Install the app.

<<ELIGIBILITY_2>> can download 98point6® from the App Store or Google Play.

2 Set up and sign in.

You'll be just a few taps away from starting <<eligibility_3>>. Behavioral health visits are available to adults ages 18+.

3 The right care at the right time

A care team including board-certified physicians can provide diagnosis and treatment for 600+ conditions via secure text. If needed, they can help coordinate a video-based session with a 98point6 therapist.

Ready when you are

Primary care is accessed through a secure text-based app on your mobile device. Start a visit and receive diagnosis and treatment, including ordering of prescriptions and labs or medical questions answered. Get 24/7 care from anywhere—during a break at work, while eating lunch or between meetings. No travel and no waiting rooms.

Behavioral health is primary, too

Our team-based approach starts with a primary care physician who helps direct you to a licensed clinical social worker (LCSW) to coordinate confidential, video-based sessions on your schedule.

Low cost, no appointments

<<PRICE2>>

Prescriptions or labs will be processed and billed in accordance with your medical plan benefits.

Primary care is available to <<eligibility_1>>.

Behavioral health coaching and therapy is available to <<eligibility_2>>.

Download the app and register in less than 90 seconds.
